

**Pro
Controll™**

Fight the fish. Not the trolling motor.

MOUNT ANYWHERE.

ProControll **EZMount**

*Now you can mount your
trolling motor on the bow!*

ProControll **EZMount II**

*Now you can mount your trolling motor
on the bow! Replaces OEM bracket.*

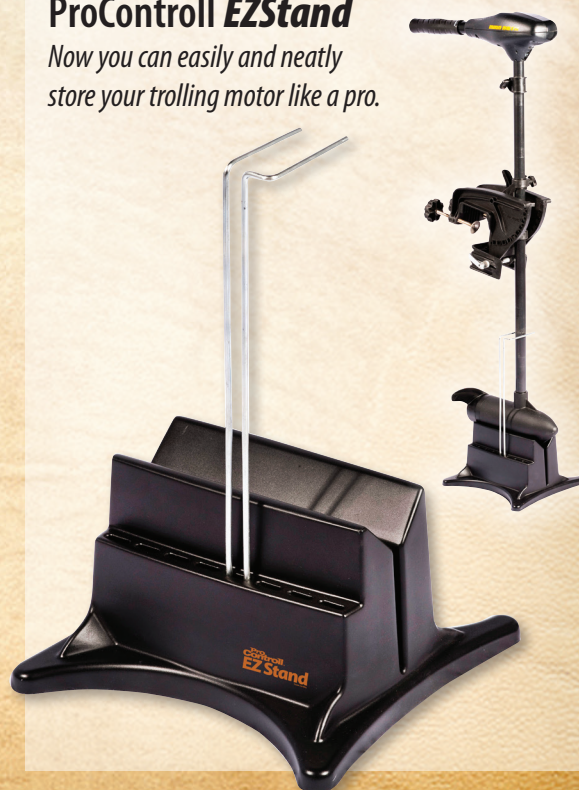

Unique, affordable solutions to easily transform almost any transom mount trolling motor to bow-mount

The ProControll system provides transom mount trolling motor owners with benefits usually available only on much more costly bow-mount systems. With the EZMount anglers can steer from the jon/utility boat's bow. All products are made of rustproof, virtually indestructible, fiberglass reinforced nylon for strength, durability and long life in harsh marine environments.

STOW NEATLY.

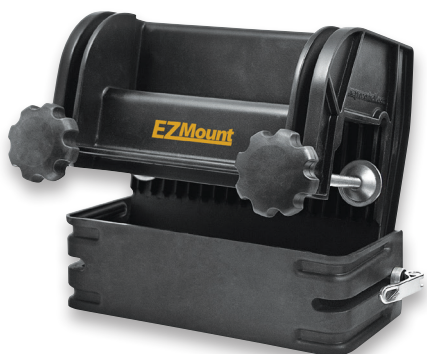

ProControll **EZStand**

*Now you can easily and neatly
store your trolling motor like a pro.*

See features and specifications on back.
